

Annual Glen Cedar Forest Naturalization Day May 12, 2007

As an annual event hosted by the Newmarket Scouts, the forest has undergone a dramatic improvement in the last few years. If you haven't gone through the forest before, now is your chance to see what a beautiful setting it is. By participating in environmental projects, youth learn to appreciate the environment for a lifetime.

Location: The tennis courts at Glen Cedar Public School.
Parking available in the school lot.

Time: 9:00-12:00 am (or however long you would like to stay)

This year we hope to focus on planting native wild flowers and the finishing the third and last segment of the boardwalk. Please bring: trowel and bucket (shovels and wheelbarrows if you have also, we are very short of these). *Please remember to label all items.*

This year our environmental projects include:

- | | |
|---|---|
| Building 3rd and last boardwalk | 1. Planting berry-producing shrubs |
| Planting native wildflowers | 2. Spreading wood mulch on paths |
| Building bunny habitats | 3. Cleaning the creek |
| Lining the paths with spars | 4. Clearing of water path |
